<u>One Day Webinar on "ARTIFICIAL INTELLIGENCE"</u>

The Department of Computer Science and The Department of Computer Application of Prerna College of Commerce jointly organized one day Webinar on the topic '**<u>ARTIFICIAL INTELLIGENCE</u>**' on 7th July 2020 from 10:00 am to 12:00 pm for the students.
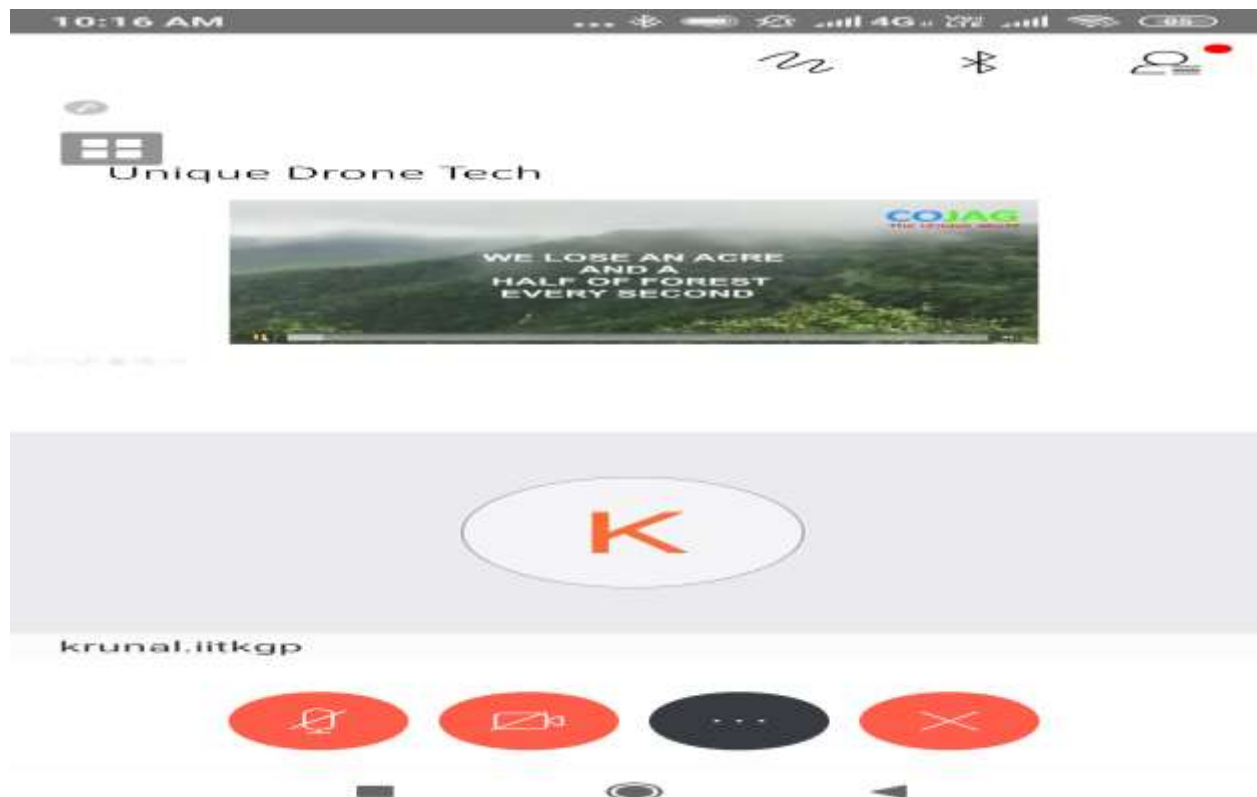

The total duration of the webinar was 2 hours. Total 121 students were virtually present in this event. The session started by the welcome note delivered by Dr. Bharti Deshmukh, Officiating Principal. The goal of the webinar was to impart knowledge of artificial intelligence among students which include learning, reasoning, and perception.

The key note address was delivered by Mr. Kunal Ramesh Kalbende, He is CEO of COJAG smart Technology Pvt Ltd, Nagpur and a founder of Atom Technology, the tech oriental development and service provider company.

The resource person explained what Artificial Intelligence is and also discussed about agents and environments. He gave some simple examples for better understanding for Artificial Intelligence. He explained how to use Machine Learning in COVID-19 and gave the current information about unique Drone Tech. He also shared his knowledge about Act, Humanly and Rationally.

The session was interactive. Students were motivated by the speaker to ask questions regarding the topic. Mr Krunal Kalbende satisfied the students by answering their queries. The session benefited the students a lot. The program was compered by Ms. Afsha Khan while the vote of thanks was proposed by Ms. Shweta Mankar. Dr Debasis Das, Ms Reena Urkande work hard to make the Webinar a grand success.
