He highlighted on the very important topics such as Block-Chain, Video Streaming, Artificial Intelligence etc.
2. In this session, Director, Dr. Pravin Joshi covered the topics like Learning Analytics, Video Assisted Learning, Gamification, Cloud Computing, Block Chain and Benefits and Drawback of E-Learning.

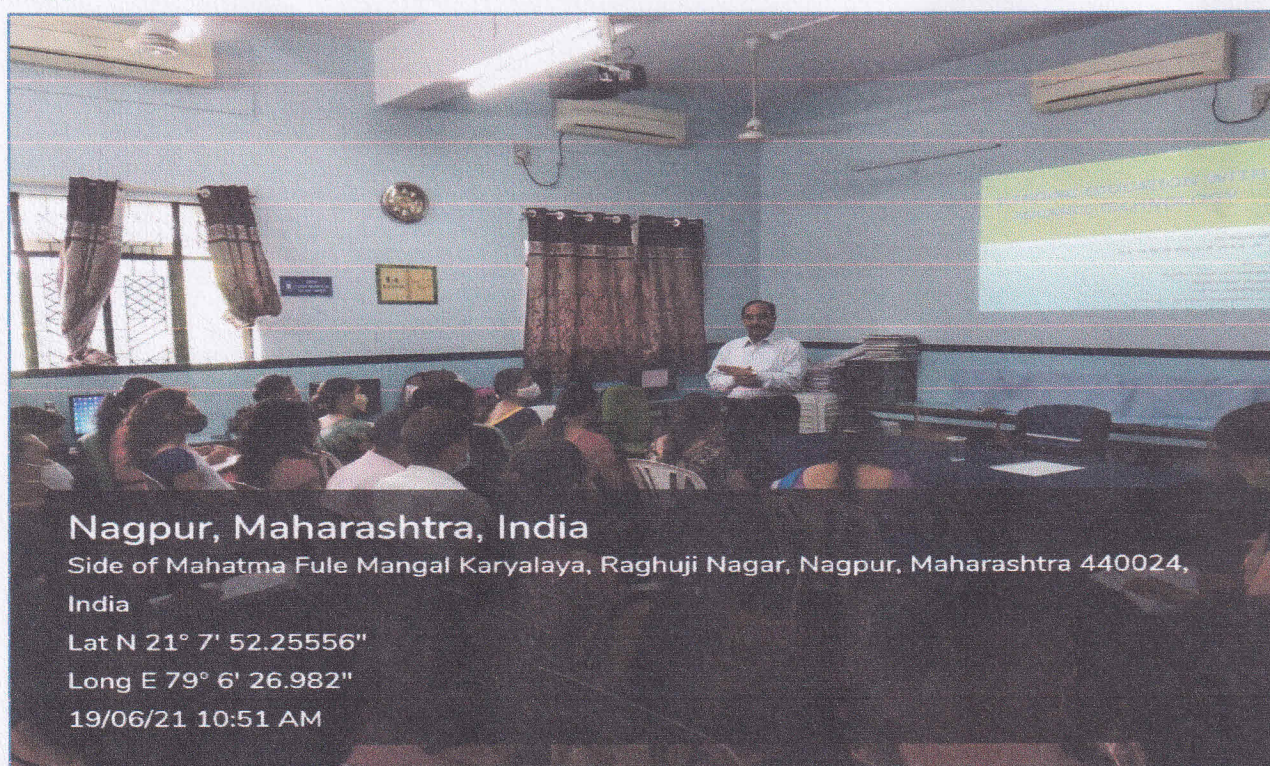

**Outcome: -**

- One of the biggest outcomes of e-learning in higher education is that it transcends geographical boundaries. It allows students the benefit of a class, irrespective of their physical location.
- One of the most important benefits of e-learning for teachers are the reduced costs when it comes to travel fees, and printing costs.
- Paper consumption is also significantly reduced because all of the information is in an **electronic** format.
- Online learning solutions provide much-needed effectiveness for teachers, allowing them to maximize the potential for individual learning curves and styles within the classroom.
- Increased flexibility of time and location.
- Being paperless, e-learning in higher education is an eco-friendlier studying option than other power consuming & resource exhausting alternates.
- Online education provides access to a greater depth and breadth of resources and information.
