

Committee: Green Campus Committee

Title of the programme: "A Talk on Energy & Water Conservation: Means & Methods"

Speaker: Dr. Ashok Bhad

Chairman: Dr. Pravin Joshi (Director of Prerna College of Commerce)

Date and Time: 22/02/2021 10.30 am-11.30 am

Objectives: -

1. To create awareness among the student about Energy & Water Conservation.
2. To make them aware about Renewable and Non Renewable Energy Resources.
3. To spread awareness about the advantages of Energy & Water Conservation.
4. To introduce to the students what means and methods have to be for conserving Water and Energy.

Highlights: -

1. Dr. Ujjwal Lanjewar welcomed Dr. Ashok Bhad, speaker of the programme.
2. Dr. Pravin Joshi introduced the guest.
3. Dr. Ashok Bhad explained the concept of Energy like its Definition, Types and Transformation and Water Harvesting.
4. Dr. Ashok Bhad in his talk made student aware about the means and methods one should adapt to save Energy and Water in daily routine activities.
5. Dr. Ashok Bhad advised to switch off electronics device when not in use.
6. He advised not to leave the water running while brushing your teeth or washing your hands and while shaving, just turn it on when it's time to rinse Brushing the teeth or hand wash.
7. He advised simply use buckets instead of the hose while car and dishes washing.
9. Only run the washing machine and dishwasher when you have a full load.

Outcome: -

- The students have learnt the Concept of Energy and Water Conservation.
- They learnt the importance of Energy and Water Conservation.
- The students also learnt the need of "Energy Saving is Energy Earning".
- They also understand environmental conservation through self education and by adopting some means and methods which prevent further depletion of our Non-Renewable Energy and Water Resources.
- The students have learnt the environmental aspects of non-conventional energy resources. In Comparison with various conventional energy systems, their prospects and limitations.

No. of Beneficiaries: -25
