Committee: - Green Campus Committee

Title of the programme: - 'Certificate Course in Environment Protection and Preservation'

Guest: - Day wise List of **Resource Person**

Day 1: Dr. Ashok Bhad

Day 2: Dr. Rajkumar Khapekar

Day 3: Dr. Ashok Bhad

Day 4: Dr Rajkumar Khapekar

Day 5: Dr. T. R. Bandre

Day 6: Dr. Ashok Bhad

Day 7: Dr. T. R. Bandre

Day 8: Mr. Ravindra Shrikhande

Day 9: Dr. T. R. Bandre

Day 10: Dr. Ashok Bhad

Day 11: Dr. Ashok Bhad

Chairman: - Dr. Pravin Joshi (Director, Prerna College of Commerce)

Day and Date: - From Tuesday, 1st March 2021 to Monday, 13th March 2021.

Time: - from 11:00 am to 2:15 pm.

Objectives: -

- 1. To create awareness among student how to use resources sustainably
- 2. To Create awareness about preserving the environment

(Run by PRERNA SEWA MANDAL, Redg. No. Sr Act 1860-370/83, BPT Act – 1950. F/3826) Reshimbag Square, Nagpur – 24

• To ensure that the natural environment is used wisely and continues to be available for the benefit and enjoyment of future generations;

Highlights: -

1.On the first day Dr. Pravin Joshi Director, Prerna College of Commerce inaugurated the certificate course and addressed the students about need of Environment Protection and Preservation.

Dr. Pravin Joshi welcomed and introduced Dr. Ashok Bhad, speaker of the programme. Dr. Ashok Bhad explained the concept of Air Pollution, Types and source of pollutants. He also explained how Smog and Green house gases are produced. Dr. Ashok Bhad in his talk made student aware about how these air pollutant.

2. On the second day of the certificate course Ms Sakshi Shivhare welcomed Dr. Rajkumar Khapekar, speaker of the program.Mr. Vinod Shahu introduced the guest.

Dr. Rajkumar Khapekar explained the concept of Ecosystem and Biotic Factor like its definition and meaning in a simple manner. Dr. Rajkumar Khapekar in his talk explained various aspects of ecology i.e. man made and man engineered ecology.

He also gave information about producers, consumers, predators, decomposers and food chain. He suggested students that by improving water quality, reducing environmental pollution, protecting biodiversity, and limiting the destruction of natural resources they can protect ecosystem.

3. On the third day of the certificate course Ms Afsha Khan welcomed and introduced the guest Dr. Ashok Bhad, speaker of the program.

Dr. Ashok Bhad explained the concept of water scenario and sustainability like its introduction and water availability: Global and Indian Scenario.

Dr. Ashok Bhad in his talk explained to identify scenarios that provide better water management process. He also gave information about India's water future

and future trends. He also suggested students that how to make future strategy for waste water.

4. On the Fourth day of the certificate course Ms Sakshi Shivhare welcomed Dr Rajkumar Khapekar.

Dr Manjiri pathak introduced Dr Rajkumar khapekar to the students.

Dr Rajkumar Khapekar explained the concept of what are environmental problem and how to face these problems and sources and solutions on these issues.

Dr Rajkumar Khapekar in his talk made students aware about global warming and reasons for increasing temperature on earth. He advised the graphical representation of IPCC according the earth is raising the temperature.

- 5. On the Fifth day of the certificate course Ms. Priya Godbole welcomed and introduced the guest Dr. T. R. Bandre, speaker of the program.
- Dr. T. R. Bandre in his talk made students aware about Soil under a vegetative cover is saved from erosion due to wind as that cover acts as a wind barrier.

He explained the practices used to protect the soil from degradation. He advised to go for Crop Rotation to save the soil from adverse effects that would caused by continuous cultivation.

He advised to promote soil organisms like earthworms that would help to boost soil fertility by decomposing organic material in the soil. He advised the students not to go for non-native plants to prevent soil erosion.

6. On the Sixth day of the certificate course Ms. Snehal Dongare welcomed and introduced the guest speaker of the program, Dr. Ashok Bhad

Dr. Ashok Bhad explained the importance of rain water harvesting and its impact on society living. Dr. Ashok Bhad made students realized about the importance of Rain water harvesting require in saving the universe. He made students aware about various possible measures taken for rain water harvesting.

He in his talk beautifully explained its utilization in various fields. He also explained different ways of using rain water

- 7. On the Seventh day of the certificate course Ms. Vidya Mulmule welcomed and introduced the guest Dr. T. R. Bandre, Speaker of the program.
- Dr. T. R. Bandre introduced students about waste management. Dr. T. R. Bandre explained importance of waste management in order to avoid pollution. He talked about Effects of Improper Waste Management like Soil Contamination, Water Contamination etc.
- **8.** On the eighth day of the certificate course Dr.Pravin Joshi, Director welcomed the chief guest Mr.RavindraShrikhande and delivered introductory speech.

Various important aspects of industrial pollution was explained in detailed in his talk. This session was compared by Dr.LiladharRewatkar and also delivered vote of thanks. Discussion session also conducted to clear doubts.

- **9.** On the Ninth day of the certificate course Mr. Chandrashekhar Topale welcomed and introduced the guest Dr. T. R. Bandre, Speaker of the program.
- Dr. T. R. Bandre introduced students about Biodiversity.Dr. T. R. Bandre explained the effects of disturbing biodiversity and types of biodiversity conservation. He talked about strategy for biodiversity conservation.

The two major factors responsible for the loss of Biodiversity

- **10.** On the Tenth day of the certificate course Ms. Snehal Dongare welcomed and introduced the guest speaker of the program, Dr. Ashok Bhad.
- Dr. Ashok Bhad explained the importance of renewable energy conservation and its impact on. Dr. Ashok Bhad made students realized about the importance of renewable energy conservation required in saving our universe.

He made students aware about various possible measures taken for renewable energy conservation.

- **11.** On the Eleventh day of the certificate course Ms. Sampada Mashirkar welcomed and introduced the guest Dr. T. R. Bandre, speaker of the program.
- Dr. T. R. Bandre in his talk made students aware about Ecosystem that contains living as well as non living factors. He further explained the importance of

(Run by PRERNA SEWA MANDAL, Redg. No. Sr Act 1860-370/83, BPT Act – 1950. F/3826) Reshimbag Square, Nagpur – 24

ecosystem, which helps to control essential ecological processes and how it promotes lives.

He described different types of Ecology such as global ecology, landscape ecology, ecosystem ecology, community ecology, population ecology, organism ecology in detail. He pointed out how lack of ecological understanding has led to the extinction and endangerment of certain species.

He clarified that the study of the environment and organisms would help us to protect them from any damage and danger, also Proper knowledge of ecological requirements prevents the unnecessary wastage of energy resources.

Outcome: -

- ➤ The students have learnt the Concept of Air Pollution.
- > They learnt how air pollutants affects on human health.
- ➤ The students have learnt the concept of ecosystem and biotic factor.
- ➤ They learnt the importance of ecosystem and biotic factor.
- ➤ The students have learnt the concept of water scenario and sustainability.
- > The students also learnt the need of preserve or improve the desired water management
- The Student has learnt about Environmental Problems.
- ➤ They learned importance of green house.
- ➤ The students have learnt the Concept of Soil Conservation.
- \succ They learnt the importance of Soil Conservation and how to maintain its p^H level.
- > The students have learnt the importance of rain water harvesting
- ➤ They learnt how to save water by implementing various activities for rain water harvesting
- ➤ The students have learnt the difference of solid waste, liquid waste, organic waste, Recyclable waste and hazardous waste.
- ➤ They learnt management of waste: Wet waste and Dry waste.
- > Students were able to understand the various factors affecting our environment.
- The students have learnt the biodiversity, ill effects of disturbing biodiversity, conservation of biodiversity, types of biodiversity conservation.

(Run by PRERNA SEWA MANDAL, Redg. No. Sr Act 1860-370/83, BPT Act – 1950. F/3826) Reshimbag Square, Nagpur – 24

- The students have learnt the importance of renewable energy conservation
- > They learnt how to save water by implementing various activities of renewable energy conservation.
- ➤ It has learnt by the students that Care for earth, care for the coming birth.
- ➤ The students learned how ecology plays an important role in conservation of environment.

No. of Beneficiaries: - 97

Anchoring and Vote of Thanks By:

Day 1: Mrs. Priyanka Chandawar

Day 2: Ms. Sakshi Shivhare

Day 3: Mrs.Afsha Khan

Day 4: Mrs.Manjhiri Pathak

Day 5: Ms.priya Godbole

Day 6: Ms. Snehal Dongre

Day 7:Ms.Vidya Mulmule

Day 8: Mr. L.R Rewatkar

Day 9: Mr.C.S. Topale

Day 10: Ms. Snehal Dongre

Day 11: Ms. Sampada Mashirkar
