Two-Day Multidisciplinary National Conference on *'Adding New Dimensions to Higher Education In The Light of New Education Policy'*

Hon'ble Key Note Speaker
Topic: - Understanding National Education Policy

Dr. D. N. More, Associate Professor, PG Department of English and Research Centre, People's College, Nanded and Member, Senate, SRTM University, Nanded

Hon'ble Resource Person
Topic:-Technological Significance in National Education Policy

Dr. Vivek M. Nanoti, Principal, Prayadarshini Institute of Engineering and Technology, Nagpur

Hon'ble Moderator

Higher education plays an extremely important role in promoting human as well as societal wellbeing and in developing India as envisioned in its Constitution - a democratic, just, socially conscious, cultured, and humane nation upholding liberty, equality, fraternity, and justice for all. Higher education significantly contributes towards sustainable livelihoods and economic development of the nation. As India moves towards becoming a knowledge economy and society, more and more young Indians are likely to aspire for higher education.

For the purpose of developing holistic individuals, it is essential that an identified set of skills and values will be incorporated at each stage of learning, from pre-school to higher education.

At the societal level, higher education must enable the development of an enlightened, socially conscious, knowledgeable, and skilled nation that can find and implement robust solutions to its own problems. The purpose of quality higher education is, therefore, more than the creation of greater opportunities for individual employment. It represents the key to more vibrant, socially engaged, cooperative communities and a happier, cohesive, cultured, productive, innovative, progressive, and prosperous nation. This conference is a humble effort to understand what new dimensions the NEP will add to higher education in India and how we shall experience a positive change in higher education.
