Teaching is very well

Well notes

Practical subject should teach on projector and also with explaining codes
Should be interactive

One or more

Teachers should give students topics to explain after the completion of units.

Ggj

Advice students for their career and academic opportunities.

1) Teachers should control the class well. 2) Teachers should explain any concept through examples.
3) Teachers should take revision of students.

Teacher are intelligent

They are so good

Project, extended lab, increase library books

They should focus on personal goals also and help students achieve them.

The should tell the pattern of writing and taking practice too as well as indicate where students

have done wrong and try to correct them.

More than 1 teacher should correct the paper to maintain fairness and avoid mistakes done by one teacher. It may happen one teacher did not give marks cause she thought it like that, but another teacher may think that marks can be increased.

At last, teaching quality needs to be improved a bit, but making it more interactive either using smart board or giving fun projects related to topics.

Teaching staff is not good at all .

I am a student of B.Sc (cs) .

I am in my final year but during the past 2.5 Years I just found only 2 good faculties (Pooja Deokar Mam and Kajal mam) but they leave the college.

I some how manage to get good grades by watching videos on youtube.

Talking about other teachers they don't even know the full concepts of their own subject .

I think this is the best college in the whole world. 😂😂😂😂😂😂

Teacher ne students ke sath thoda friendly rehena chahiye

We request all our old masters to return to our first master or the one who has come now to return to the second test. We have requested the app to help us a lot. Thank you.
