Waste Management Policy

The college has a clearly documented Waste Management Policy that outlines systematic procedures for the collection, segregation, and disposal of waste within the campus. All physical facilities—including classrooms, laboratories, the library, and common areas—are maintained by trained support staff to ensure hygiene and safety. The institution works closely with the local municipal authorities and certified waste handlers to ensure responsible waste disposal. The policy emphasizes maintaining cleanliness across all academic and residential spaces and reinforces the institution's commitment to sustainable campus operations.

Objectives

- ✦ To establish a structured system for the collection, segregation, and disposal of wet and dry waste.
- ✦ To collaborate with certified waste handlers and municipal agencies for proper disposal.
- ✦ To maintain cleanliness across classrooms, library, canteen, hostels, and administrative blocks.
- ✦ To promote awareness of responsible waste practices through workshops, campaigns, and training sessions.
- ✦ To encourage eco-friendly waste minimization practices such as composting of organic waste and reducing single-use plastic consumption.

Awareness and Student Activities

- ✦ Conducting departmental seminars, poster campaigns, and competitions focused on waste reduction.
- ✦ Integrating Environmental Studies-related courses to develop student awareness of responsible waste management.
- ✦ Encouraging student participation in campus clean-up drives, waste audits, and segregation awareness activities.

Chowk, Nagpur-24

Monitoring and Assessment

- Periodic waste audits to assess generation patterns and identify reduction strategies.
- Tracking sanitation quality across different facilities.
- Monitoring waste disposal processes to ensure compliance with municipal standards.
- Reviewing composting units, recycling systems, and plastic-free campus measures.

Waste Management Initiatives

- Segregation of wet and dry waste at source across all departments and hostels.
- Composting organic waste within the campus.
- Recycling paper, plastics, and metals through authorized agencies.
- Safe disposal of e-waste through certified handlers.
- Installation of adequate dustbins and waste collection points across the campus.

Expected Outcomes

- The institution will establish an effective waste segregation and disposal system, improving overall waste handling.
- The institution will reduce total waste generation through composting, recycling, and awareness programs.
- The institution will ensure compliance with municipal waste disposal norms, reducing environmental risks.
- Students will learn proper waste segregation, understanding the difference between wet, dry, recyclable, and hazardous waste.
- Students will develop strong hygiene and cleanliness habits, applying them in daily life.
- Students will learn the importance of recycling and composting, gaining practical waste-handling skills.
- Students will become more aware of the harmful effects of single-use plastic, reducing its usage.
- Students will develop a waste-minimizing mindset, learning to reduce, reuse, and recycle.
- Students will become environmentally responsible citizens, understanding sustainable waste practices for the future.
